ACCESSORIES

ACCESSORIES BENEFITS

These accessories are in some cases more important than the products they go with. Quality is in the details! To execute a perfect install, we recommend using every product on this sheet. From perimeter clips to secure in pavers, to twist slope compensators to make sure you get a level deck, these accessories translate into more efficiency which helps everyone from the client to the installer.

DETAILS AND SPECIFICATIONS

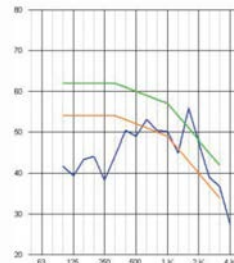

ETERNO SILENT ADJUSTABLE SUPPORT

High-density, closed-cell, 3 mm thick foam insulating layer.

Sound reduction

Head noise reduction ΔL_{W} Fino a 25 dB
Up to 25 dB

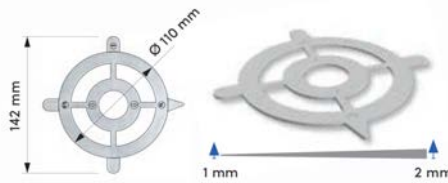

Base noise reduction ΔL_{W} Oltre 25 dB
Over 25 dB

EN Tests performed on a predella floor with tiled floor on concrete substrate, elevated floor with concrete tiles on SE3 support with self-leveling bi-component head.

TWIST SLOPE COMPENSATOR

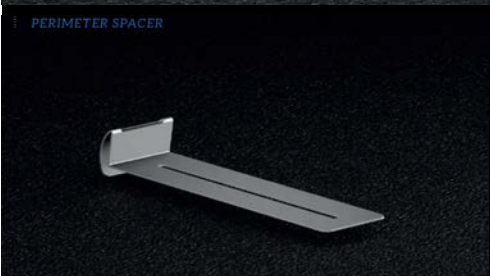

The simplicity of a movement for a perfect flatness

The Twist slope compensator, compatible with the NM, SB, ST and EH supports has been studied to allow the leveling of slopes from 0% up to 1% degree with a simple movement. Modular and easy to adjust with a simple rotation, allows for perfectly flat surfaces.

It is possible to use several compensators, adding them together, until reaching the desired percentage of leveling.

ADJUSTING KEY

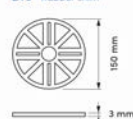

PERIMETER SPACER

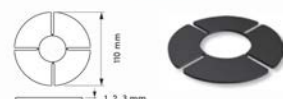

RUBBER SHIMS

LH3 - Rubber shim

LGH1 - LGH2 - LGH3 - 1-2-3 mm - Ø 110 mm

Livellatore in gomma LGH1, LGH2 e LGH3 con effetto antiscivolo e antirumore. LGH1, LGH2 and LGH3 rubber shim. Non-slip and anti-noise.
