### ALL NATURAL TURF BENEFITS

The most natural-looking artificial turf on the market. This turf can be installed on landscapes, lawns, playgrounds, traffic medians, pet areas, commercial or residential spaces, and is suitable for lightly to heavily trafficked areas. This fake turf can be used anywhere, and it will dramatically enhance the look of its surroundings. It has numerous practical benefits as well: it saves money, water, and encourages physical activity.

### FEATURED BENEFITS

- ✓ S blade with Luster Guard™ ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect that makes artificial grass look like plastic.
- ✓ S-Blade yarn system takes durability to the next level! It's fiber wear was tested at 50,000 cycles (50,000 cycles= 20 yrs of wear). This Lisport test gives a visual indication on how a synthetic turf system will age in time.
- ✓ The ribbed blade also eliminates weak points in the fibers creating unprecedented split resistance.
