## FIXED PEDESTALS

### SPECIFICATIONS

PRODUCT NAME:	FP
CHARACTERISTICS:	Polypropylene
ENVIRONMENTAL IMPACT:	Recyclable material - non dangerous
CENTRAL COMPRESSION LOADING LIMIT RESISTANCE*:	29.57 KN
SLOPE CORRECTION:	0-5%
SHORE:	70 (+/-3)
FIRE REACTION*	UNI EN 13501-1:2009 class E
LOW TEMPERATURES REACTION*:	-40

\*Calculated at medium hgt, fixed pedestal  
 \*Tests made by Civil and Environmental Dept of U of Padova. 1 KN = 98,6 Kg  
 \*Tests made by Giordano S.p.A. Institute of Bellaria-Igea Marina (RN)-Italy

### BERLAND FIXED PEDESTAL BENEFITS

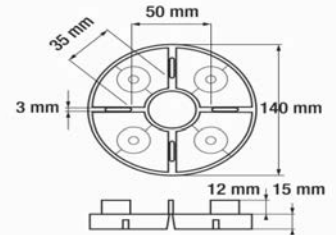

BERLAND fixed pedestal line is geared toward projects that don't offer a lot of height in the assembly. Adding shims is not a professional job, you need a spacer in between the pavers to continue the consistency throughout the layout.
